

Guideline Developers and Contributors

The authors and editors would like to thank everyone who has contributed to the JRCALC guidelines over a number of years. Many people have given freely and generously of their time to help draft, develop and improve the guidelines. In particular, we wish to acknowledge the work of the members of the Joint Royal Colleges Ambulance Liaison Committee, the National Ambulance Service Medical Directors group, the Ambulance Lead Paramedics group and the Ambulance Pharmacists Network. Other contributors have come from multidisciplinary groups and include healthcare professionals, educators and patients.

2019 Guidelines
